The ancient Mediterranean sound created in The Voyage of the Black Madonna is combined with contemporary world music making a bridge between primitive, traditional, and modern music.

The theme of the show, curated & written by Alessandra based on her 35 years of research into the Black Madonna of Southern Italy, follows The Legend of the Seven Madonnas.

"In southern Italy the peasant women who work in the fields at sunrise chant the legend of the Seven Madonnas who are seven sisters. The last of the sisters was considered to be the ugliest, so she ran away to a high mountain, in order to make the pilgrims search hard to find her. When she was found, it was

discovered that she was, in fact, the most beautiful of all Madonna's and that she was black, so they called her Mamma Schiavona (the Slave Mother) known to Italians as La Madonna di Montevergine."

THE VOYAGE OF THE BLACK MADONNA brings people together through the universal connection of the Great Mother Earth Goddess creating a spiritual and joyous celebration.
